# Bharat Vikas Parishad Vikalang Punarvasan Kendra, Pune

## A humble Appeal

### **Bharat Vikas Parishad:**

Bharat Vikas Parishad is a nationwide voluntary organization and strives for the overall upliftment of Indian citizens and **it works selflessly in the field of service and Sanskar** (culture) to awaken nationalism and national unity among them.

Parishad was established in 1963 in Delhi. At present, there are more than 1300 branches in all the states of India and there are more than 1.25 lakh families (husband and wife), who are strong, capable and enlightened in society, are the members of this organization. This organization is dedicated for educational, social, moral, cultural, and spiritual development of the society through the five Sutras of Sampark, Sahayoug, Sanskar, Seva, Samarpan

### **Vikalang Punarvasan Kendra, Pune: (Silver Jubilee year)**

According to the 2011 census, there are about 2.68 crore persons with disabilities in India, which is more than 2% of the total population, out of which 54 lakh persons are physically handicapped and about 40000 people are added to it every year. Realizing the seriousness of this in time, Parishad started working in the field of disability about 60 years back. At present, there are 13 permanent disability centres in various states through which, **about 20000 disabled persons are fitted with artificial legs, Hands, and Callipers free of cost every year.** Bharat Vikas Parishad is the only social organization in the country serving for the disabled since 1963 on such a large scale.

Out of the 13 centers in India, the Permanent Disability center located in Pune, Maharashtra has been functioning since 1997 and currently around 2000 persons with disabilities are fitted with free artificial feet, Hands and callipers every year. **In View of Silver Jubilee year of this Centre, Divyangata Mukta Abhiyan is being implemented.**

### **Production of Artificial Limbs:**

Artificial feet, Hands and polio callipers and other orthosis supports are manufactured in the workshop of this Disability centre with the help of advance machinery and trained technicians. After fitting artificial feet, person with disabilities can carry out daily activities such as walking, running, swimming, jumping, driving etc. In this regard, practice and guidance is also given at the center through trial. **Advanced artificial modular feet is light in weight, durable and auto fold knee joints,** making it easier for disabled people to walk and sit. It is so natural that nobody can make out that it is artificial foot.

### **A humble appeal for donations:**

Navbharat Vikas Foundation and Vikalang kendra are not receiving any government funds. This service project has been running continuously for the past 25 years through the financial support of individual donors and social organizations and the donation funds of the CSR activities of company. Although the commercial cost of advance artificial limbs is very high, the actual manufacturing cost at our centre is Rs. 12000/- per feet, Rs. 9000/- per hand and Rs. 4000/- per callipers. The Bharat Vikas Parishad appeals to the interested donors to get the satisfaction and virtue of making the disabled people stand on their own feet by donating as much as they can or at least for one foot, hand. We also request Social organizations / companies C S R to donate in large quantities every year.

Yours faithfully,

**Datta Chitale (9850048637)**  
Chairman, Navbharat Vikas Foundation

**Vinay Khatavkar (9326730666)**
