ANNEX - I

Profile of our Organization and track record of Vikalang Punarvasan Kendra, Pune.

A) Bharat Vikas Parishad- NGO

Bharat Vikas Parishad (B.V.P.) is a nationwide voluntary organization and strives for the overall upliftment of Indian citizens and it works selflessly in the field of Service and Sanskar (Culture) to awaken Nationalism and National Unity among them. Flagship seva project of B.V.P. is free distribution of artificial limbs (Modular foot, hand, calliper etc.)

B) Bharat Vikas Parishad – Vikalang Punarvasan Kendra, Pune

In Maharashtra “Bharat Vikas Parishad Vikalang Punarvasan Kendra, Pune”

is working under the registered trust NavBharat Vikas Foundation. In our centre Pune since 25 years we arrange artificial limbs fitment for walk-in Divyang throughout the year as well as camps in various towns of Maharashtra. Artificial limbs are manufactured in a small workshop at our centre Pune. In View of Silver Jubilee Year of this centre Divyangata Mukta Abhiyan is being implemented.

We have no direct Govt. funds / Aid. We run this project on CSR Assistance of various companies for e.g L & T, MNGL, GAIL India Ltd., Persistent Foundation, etc. and corporate and individual donors as well as various Rotary Clubs and BVP Branches.

C) Advanced artificial modular leg costing

On an average market cost of one modular leg ranges above Rs. 60000/- . However our manufacturing cost for the same is Rs.12000/- Which is given free of cost to beneficiaries and hence we expect Rs.12000/- per leg from your organisation.

We would like to mention here that previously we used to give Jaipur foot but now modular foot is better and gives comfort to Divyang hence we now provide the same since last five years.

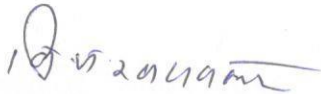

P.T.O.

Merits of modular foot (Costing Rs.12000/-) over traditional Jaipur foot (Costing Rs.4000/-):

1. More walking comfort for the user.
2. Perfect fitting to the amputees stump.
3. Light in weight.
4. Easily adjustable in case of any future changes in the user body.
5. They get automatically folded while sitting or walking.
6. Modular foot have better life than Jaipur foot.
7. They have good aesthetic look like natural foot.
8. The toe is flexible to give right thrust to walk firmly on the ground.

Our trust have relevant documents required for Donations / CSR. Kindly feel free to contact us in case of further clarification is required in the matter.

Sincerely,

Vinay Khatavkar, Pune
